

# Common Themes We Hear Through Public Input

## Residents have told us they want...

- A park that they can use for both walking and biking
- A place to exercise and explore in nature
- A location for children to play
- A space for family gatherings
- Amenities that complement the natural landscape rather than fight against it
- Amenities that are the right size; nothing that is over-sized and would disrupt the natural atmosphere of the park
- A quiet and peaceful park that will not disrupt the surrounding neighborhoods (i.e. limited amount of light and noise)
- A park that will not encourage unwanted behavior (i.e. vandalism, theft, and parties)
- Restrooms and water fountains
- Gravel, not paved, parking areas
- No sports fields/courts
- No archery or shooting sports
